

TERRASOURCE GLOBAL

OUR MISSION

Helping power, feed, and
build the world

OUR VISION

Partner of choice in mission critical
material processing

ABOUT US

With over 10,000 installations across the globe, TerraSource Global continues to be a partner of choice for companies across a wide variety of industries, including mining, agriculture, energy, sawmills, pulp and paper, and more. Our trusted flagship brands (Gundlach Crushers, Jeffrey Rader, and Pennsylvania Crusher) provide customers with high-performance crushing, screening and feeding equipment, all backed by our Rapid Response service, broad engineering expertise and precision OEM parts.

Our equipment line includes:

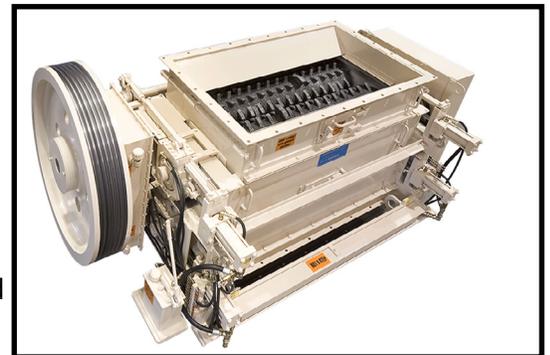

- Size reduction equipment
- Material handling equipment
- Storage and reclaim equipment
- Screening and processing equipment
- Pneumatic conveyors
- Feeders

OUR FLAGSHIP BRANDS

GUNDLACH CRUSHERS

Our Gundlach Crushers brand is best known for its single-stage, two-roll and two-stage, four-roll crushers, which crush coal both at the mine mouth and the preparation plant. Our roll crushers, cage mills and other equipment are used by coal-fired power stations, salt processing plants, fertilizer/potash manufacturing facilities and various other operations throughout the world to crush a wide array of materials.

Today the Gundlach Crushers brand is a global leader in size reduction solutions and one that continues to improve the way crushing equipment is being used to meet customers' unique requirements.

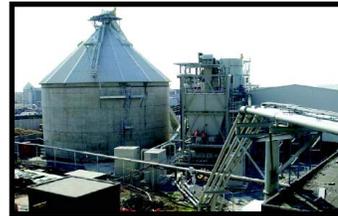

Our industry-leading Jeffrey Rader brand includes material handling systems and equipment to unload, convey, screen and crush many different bulk materials such as wood chips and pellets, biomass, coal, alternative fuels and other recyclables. The equipment includes crushers, wood hogs, pneumatic conveyors, rotary airlocks, screens, chain and screw reclaimers, and TubeFeeders, as well as metering and storage bins and silos.

Today you will find Jeffrey Rader equipment and systems installed throughout the world, providing reliable and cost-effective solution in the pulp and paper, coal and biomass power, aggregate, petrochemical, forest products, mining industries, and more.

Our Pennsylvania Crusher brand includes our impactors, granulators, hammermills, single roll crushers, sizers, and POSIFLOW™ feeder for coal and other minerals. These machines are available in a wide variety of sizes and configurations, each built-to order to meet customer specifications. The unique POSIFLOW™ displacement-action feeder uses proprietary technology to eliminate fugitive dust, provide consistent feeding, and increase operational safety.

Since its inception, Pennsylvania Crusher has been solving the crushing problems of its customers with the most advanced technology, the highest quality machinery and unparalleled service. Today Pennsylvania Crusher brand machines are found in 75% of all power plants processing coal in the United States and are used for multiple material reduction and processing applications in 79 countries around the world.
